Layer No 114-115:

Specifics: Ski tracks on slope; We skied slope ρ Crystal Stability tests Size Moisture kg/m³ Form 150 140 130 120 /(日) 0.5 ECTP20 @114cm ECTP16@114cm 110 θ 0.5-1 100 90 80 70 60 50 40 30 20 10 0 к Р 1F 4F F Notes: Pit in Middle Basin was HS 175 and ECTN18 on NSF/MFCx 40cm down. ECTP in this pit was a surprise and not on a clear visible interview.

looked like decomposing/framented. Maybe under old wind slab. Skied steep, but conservative terrain lower on slope.
