

From 4/11/23: Yesterday (4/10) Colters released a wet slide (approx 1-3pm) that filled the top of the wiggle and left debris 300ft past the south bowl traverse.

Today Stupor had a similar sized release just after noon.

The best noted natural release was a wet slab release on the southern edge of the football field that put a pile of debris below the cave.

Advisory Region Bridger Range Longitude -110.92W Latitude 45.82N

Avalanche Details: Natural wet slides on Saddle Peak and Bridger
