Activity

Skiing

Snowmobiling

On May 14 and 15 we saw crowns and debris of wet slabs that ran naturally over the past couple weeks.

Scotch Bonnet, S [aspect](#), 9800'; Sheep Mtn. SW [aspect](#), 9800'; Crown Butte, SE [aspect](#), 10000'.

Hard to say exactly when they all occurred. The slides on Scotch Bonnet and Sheep appeared slightly fresher, but could have been a week old.
