

Remotely triggered avalanche on Buck Ridge

Buck Ridge

Northern Madison

2/15/2024

Code

AMr-R4-D2-O

Latitude

45.18570

Longitude

-111.42500

Notes

From obs: "Towards the end of the day one of our riders remote triggered a massive avalanche on the North facing slope to the North of Yellow Mule cabin. The 3-4 ft crown propagated around 600 yards wide and slid on near ground facets to the bottom of the slope below depositing a very large debris pile well into the trees."

Number of slides
