## **Large Collapse Above Wyoming Creek, Cooke City**

Wyoming Creek Cooke City 2/20/2024 Code

Aspect

W

Latitude

44.98370

Longitude

-109.95800

Notes

From obs: "My ski partner triggered a big collapse/woomph from the our skin track, heading up from WY Creek back toward Republic Creek on an W facing slope. It was the second time we worked over this skin track, and it propagated to where I was at least, about 30 yards above them. I felt/heard the collapse 1/2 to 1 second after they triggered it."
