## **BSSP triggered avalanches on facets and wind slabs**

Big Sky Resort Northern Madison 11/26/2024 Code HS-AE-R1-D2-G Latitude 45.27600 Longitude -111.43600 Notes

Big Sky Ski Patrol triggered this avalanche during mitigation work in The Wave on 11/26/24... "2-3' deep on an ice crust just above the ground with a 2# shot in the Upper rodeo. Volume was limited as most of the snow was loaded just underneath the <u>cornice</u>, but still produced a sizeable size 2... Other paths in the Lenin region ran meaty wind slabs, full track with no significant step downs." Photo: BSSP
