

Broke a small wind slab on Sluice Box

Date

Sun, 03/30/2025 - 13:00

Activity

Skiing

A small wind slab broke as I was skiing down Sluice Box near the weather station on Bridger Ridge. Crown was about 8 feet wide and the slide path looked to be about 60 feet. I was out of its way and unharmed, gave me a pretty good scare though!

Region

Bridger Range

Location (from list)

Bridger Bowl Weather Station - The Ridge

Observer Name

Karl
