I K P 1F 4F F
Notes: Dug with Jordy Hendrix. The snow was over 10 feet deep. The facets 95 cm down broke in a CT, but surprised me when they propagated in an E first time in almost 2 weeks we've seen this. Moderate danger seems right on. Better look for it. Did not dig deeper than 120 cm. Video at: http://www.youtube.com/watch?v=mBSJqZ\_eZZQ
